EXPORT TIME: SERVER CLOCK — NOT INDEPENDENTLY VERIFIED

About this example

1. These fictional records illustrate the export layout. Their fingerprints are illustrative; this sample has no independent timestamp or verification page.

2. Copying multilingual text or emoji from a PDF can change characters or their order. Real exports include a separate source manifest and timestamp evidence download.

Message record

Messages appear in chronological order. The manifest preserves the captured source text and record fields. Stored message hashes and links are checked for this selection; the result appears on the cover.

Ella's parent-teacher conference is Thursday at 4pm. Are you able to make it, or should I take notes for you?

Pickup was set for 5:00 and it's now 5:40. Ella gets anxious waiting — can we agree on a backup plan for days you're running behind?

You're right, I'm sorry — a meeting ran over. If it happens again my mom can cover pickup. I'll add her number to the shared contacts.

Thanks. Splitting the \$180 swim registration — receipt attached in the vault. Your half is \$90 by the 15th per our agreement.
